Connecting Homes and Businesses to Lightning-Fast Internet: Brightspeed Fiber Internet Now Available in Butler, Pennsylvania

With plans starting at just \$49 a month, Butler residents can now access Brightspeed's next-level fiber service

CHARLOTTE, N.C. — October 23, 2024 — Brightspeed, a national leader in ultra-fast fiber broadband, announced today that its new, high-speed fiber internet network is now ready for service in Butler, Pennsylvania. Providing multi-gig internet speeds, Brightspeed's network now reaches more than 15,000 homes and businesses, with home and business installations available immediately.

This exciting milestone marks a huge step forward for the Butler community offering a superior internet experience built for today's high-demand, multi-device world. And the best part? More access is coming—by the end of the build, more than 18,000 locations in the area will be connected.

Empowering Butler with More Than Just Speed

Brightspeed's new fiber internet network features cutting-edge XGS-PON technology, delivering multi-gig speeds, low latency and reliability.

This robust connectivity will allow families and business owners to:

- Work and learn from home: Jump into video calls, download big files, and use apps.
- Stream and game: Dive into high-quality entertainment, immersive gaming, and super smooth video streaming.
- Stay connected with loved ones: Enjoy crystal-clear video calls and keep in touch with friends and family. It makes far off family and friends seem like they are right next door.
- Access important online services: Easily tap into telehealth, educational platforms, or any other services you need with confidence.

Plus, Brightspeed ensures a smooth, hassle-free installation, backed by easy-to-understand billing and simple plans that make getting connected stress-free: no annual contracts, equipment costs, bundle requirements, data caps, or surprise fees.

Fast, reliable internet isn't just about convenience—it's about creating opportunities. Brightspeed's expansion in Butler helps close the rural-urban digital divide, enabling residents and businesses to connect to the digital economy like never before.

Check Exclusive Plans* + Availability

For new Brightspeed Fiber Internet customers in Butler, Brightspeed is providing plans starting at \$49 a month and a 1-gig-speed plan for \$75 a month.* Customers will have many different service options to choose from and decide what's right for their family, including:

- The base Brightspeed fiber plan at **200 Mbps**, which offers fast and reliable connection at an affordable cost.
- For more speed made for HD streaming and competitive gaming, the superfast **500 Mbps** is best for anyone seeking a speed boost or larger households with a need for speed.
- Brightspeed's most popular plan - the **1 Gig**. This plan, with speeds up to 940 Mbps, is made for multiple high-bandwidth users, like households that need ultrafast speeds for streaming multiple HD videos, zoom meetings and avid gaming.

- Brightspeed's fastest plan yet - **the 2 Gig**. This plan is best for anyone seeking state-of-the-art connectivity that can handle dozens of devices at once.

Residents and businesses in Butler can check if Brightspeed Fiber is available in their area by visiting www.brightspeed.com/brightspeed-fiber-internet and sign up for alerts.

As part of a broader, multi-billion-dollar investment, Brightspeed is rapidly expanding its fiber-optic network to reach more than 4 million homes and businesses across 20 states. Additionally, the company is actively pursuing state and federal funding to accelerate fiber deployment in Pennsylvania and beyond, ensuring communities like Butler stay ahead in today's digital age.

*Autopay required. Speed based on wired connection. Wi-fi speeds may vary. Available Internet speeds may vary by address. Services are subject to all applicable service terms and conditions, subject to change. Services not available in all areas. Restrictions apply.
