

News Release

Brightspeed Lights Up Warren, Ohio, and Trumbull County Locations with its Ultrafast Internet Service

With limited-time holiday offers on Brightspeed Fiber Internet plans, residents can now access Brightspeed's next-level fiber service*

CHARLOTTE, N.C. — NOVEMBER 14, 2024 — Brightspeed, a national leader in ultra-fast fiber broadband, announced today that its new, high-speed fiber internet network is now open for sale in Warren, OH and Trumbull County communities. Providing multi-gig internet speeds, Brightspeed's network now reaches over 23,000 homes and businesses in Warren and Howland Center, with installations available immediately.

This exciting milestone marks a huge step forward for the Warren community, offering a superior internet experience built for today's high-demand, multi-device world. And the best part? More high-speed fiber broadband access is coming—in the coming weeks, more than 18,000 locations in the area will be connected.

Empowering Warren and Trumbull County with More Than Just Speed

Brightspeed's new fiber internet network features cutting-edge XGS-PON technology, delivering multi-gig speeds, low latency and reliability.

This robust connectivity will allow families and business owners to:

- Work and learn from home: Jump into video calls, download big files, and use their favorite apps.
- Stream and game: Dive into high-quality entertainment, immersive gaming, and super smooth video streaming.
- Stay connected with loved ones: Enjoy crystal-clear video calls and keep in touch with friends and family. It makes far-off family and friends seem like they are right next door.
- Access important online services: Easily tap into telehealth, educational platforms, or any other services you need with confidence.

Plus, Brightspeed ensures a smooth, hassle-free installation, backed by easy-to-understand billing and simple plans that make getting connected stress-free: no annual contracts, equipment costs, bundle requirements, data caps, or surprise fees.

Fast, reliable internet isn't just about convenience—it's about creating opportunities. Brightspeed's expansion in these communities helps close the rural-urban digital divide, enabling residents and businesses to connect to the digital economy like never before.

Check Exclusive Brightspeed Fiber Internet Plans* + Availability

Customers have a variety of service options to choose from and decide what's right for their family, including:

- The base Brightspeed fiber plan at 200 Mbps, which offers fast and reliable connection at an affordable cost. Holiday offers not available for this plan.
- For more speed made for HD streaming and competitive gaming, the superfast 500 Mbps is best for anyone seeking a speed boost or larger households with a need for speed.
- Brightspeed's most popular plan — the 1 Gig. This plan, with speeds up to 940 Mbps, is made for multiple high-bandwidth users, like households that need ultrafast speeds for streaming multiple HD videos, zoom meetings and avid gaming.
- Brightspeed's fastest plan yet — the 2 Gig. This plan is best for anyone seeking state-of-the-art connectivity that can handle dozens of devices at once.

As part of a broader, multi-billion-dollar investment, Brightspeed is rapidly expanding its fiber-optic network to reach more than 4 million homes and businesses across 20 states. Additionally, the company is actively pursuing state and federal funding to accelerate fiber deployment in Ohio and beyond, ensuring communities like Warren and beyond stay ahead in today's digital age.

* Limited availability and areas. Limited time offer for new fiber customers; subject to change. Applies to current base rate of select fiber plans only. Standard rates apply after promotion period. Restrictions apply. Autopay required. Speed based on wired connection. Wi-fi speeds may vary. Available Internet speeds may vary by address. Services are subject to all applicable service terms and conditions, subject to change. Services not available in all areas. Restrictions apply.
